**FOR IMMEDIATE RELEASE**

---

**VIKING INTERWORKS™ ANNOUNCES LONG-TERM SUPPLY  
OF DIRECT RAMBUS DRAM**

**RANCHO SANTA MARGARITA, Calif. – June 6, 2007** – Viking InterWorks™, Inc., a Sanmina-SCI Company (Nasdaq NM: SANM) and designer and manufacturer of memory modules, today announced an arrangement with Elpida Memory for the long-term supply of Direct Rambus DRAM. This arrangement establishes Viking InterWorks as the primary source of Direct Rambus DRAM and module support, enabling the company to provide continued worldwide support services of this technology to networking Original Equipment Manufacturers (OEMs) using the Intel® IXP2800 Network Processor.

The Direct Rambus DRAM devices fabricated at Elpida Memory's plant in Hiroshima, Japan, are lead-free 288Mbit 2.5v FBGA devices, and are available in 800MHz and 1066MHz speeds. In addition to supplying OEM customers with these discrete Elpida Memory devices, Viking InterWorks will continue to support a complete Direct Rambus-based memory module product line that includes SORIMM and NexMod™ modules.

"This arrangement with Elpida Memory for discrete Direct Rambus DRAM enables Viking InterWorks to provide the critical memory support that our high-performance networking OEM customers require into the next decade," said Adrian Proctor, Vice President of Marketing for Viking InterWorks.

"As Intel continues to ramp production of the Intel® IXP2800 Network Processor at multiple, worldwide tier-one OEMs, Viking InterWorks' Rambus DRAM products establish a long-term

manufacturing support which is integral for the deployment of this technology,” said Frank Schapfel, product line manager of Intel’s Embedded and Communication Group.

### **About Viking InterWorks**

Headquartered in Rancho Santa Margarita, California, Viking InterWorks is focused on delivering innovative, high-quality memory and communications modules to the server, telecommunications and embedded markets. Founded in 1989, Viking InterWorks has been providing Original Equipment Manufacturers (OEMs) with industry-leading design, engineering, product support and customer service for more than 18 years. For more information, visit <http://www.vikinginterworks.com>.

### **About Sanmina-SCI**

Sanmina-SCI Corporation is a leading electronics contract manufacturer serving the fastest-growing segments of the global Electronics Manufacturing Services (EMS) market. Recognized as a technology leader, Sanmina-SCI provides end-to-end manufacturing solutions, delivering unsurpassed quality and support to OEMs primarily in the communications, defense and aerospace, industrial and medical instrumentation, multimedia and consumer, computer and server, and automotive technology sectors. Sanmina-SCI has facilities strategically located in key regions throughout the world. More information regarding the Company is available at <http://www.sanmina-sci.com>.

### **About Intel**

Intel, the world leader in silicon innovation, develops technologies, products and initiatives to continually advance how people work and live. Additional information about Intel is available at [www.intel.com/pressroom](http://www.intel.com/pressroom).

### **Sanmina-SCI Safe Harbor Statement**

The foregoing, including the discussion regarding the Company's future prospects, contains certain forward-looking statements that involve risks and uncertainties, including uncertainties associated with economic conditions in the electronics industry, particularly in the principal industry sectors served by the Company, changes in customer requirements and in the volume of sales to principal customers, the ability of Sanmina-SCI to effectively assimilate acquired businesses and achieve the anticipated benefits of its acquisitions, and competition and technological change. The Company's actual results of operations may differ significantly from those contemplated by such forward-looking statements as a result of these and other factors, including factors set forth in the Company's fiscal year 2006 Annual Report on Form 10-K filed on January 3, 2007 and the other reports, including quarterly reports on Form 10-Q and current reports on Form 8-K, that the Company files with the Securities Exchange Commission.
