FOR IMMEDIATE RELEASE

SANMINA-SCI SELECTS CHENNAI FOR EXPANSION IN INDIA

One of the World's Largest Electronics Manufacturers Unveils Plans to Build State-of-the-Art Manufacturing Technology Campus In Oragadam Near Chennai

SAN JOSE, Calif. – June 19, 2007 – Sanmina-SCI Corporation (Nasdaq NM: SANM), a leading global electronics manufacturing services (EMS) company, today announced that it has signed a Memorandum of Understanding (MoU) with the Government of Tamil Nadu, India, selecting Oragadam near Chennai, as the location for Sanmina-SCI's first state-of-the-art manufacturing technology campus in India. The campus, when completed, will provide leading Original Equipment Manufacturers (OEMs) in the medical, defense and aerospace, communications, automotive, and multimedia and consumer markets with cutting-edge manufacturing services that are especially tailored to the exacting technical and quality requirements of these market segments. At a press conference held in the city, the company formally launched its operations in India in the presence of Mr. Shaktikanta Das, Industries Secretary, Government of Tamil Nadu.

Located in Oragadam near Chennai, Sanmina-SCI's campus will cover approximately 100 acres and will be a designated Special Economic Zone (SEZ) as defined by Government of India regulations. The new campus will strengthen Sanmina-SCI's global manufacturing strategy enabling the company to better serve the growing Indian market as well as provide another source of cost-competitive technology products to Sanmina-SCI's customers around the world. In a phased manner, Sanmina-SCI's existing activities in Chennai, such as engineering, supply chain management and IT services, will relocate to the campus, enabling the company to offer its customers a comprehensive range of services from an integrated campus.

“Today’s announcement reiterates Sanmina-SCI’s long-term commitment to the Indian marketplace and our commitment to support our customers with innovative technology and advanced manufacturing solutions in key locations around the world,” said Hari Pillai, President of Global EMS Operations, Sanmina-SCI. “The long-term opportunities in the fast growing Indian market are very attractive. We look forward to joining with the people and Government of Tamil Nadu as we embark on this new phase of our presence in India. We are very pleased to make this announcement and today celebrate this important milestone with our employees and customers.”

“As one of the largest and fastest growing economies in the world, India is emerging as an economic powerhouse that is expected to continue to grow rapidly in the next few years,” said Kumaran Subramaniam, Managing Director of Sanmina-SCI India. “India is both a source of skilled, technical talent and an attractive market that is expected to become one of the major global players of the 21st century. Sanmina-SCI’s decision to establish a strong presence in India reaffirms the long-term significance of this important market.”

Sanmina-SCI is one of the world’s largest and most diverse EMS providers, offering end-to-end manufacturing solutions to branded technology companies. The company’s expansion into India extends many years of manufacturing and engineering excellence that is proven to help customers reduce market risks and decrease time-to-market.

About Sanmina-SCI

Sanmina-SCI Corporation is a leading electronics contract manufacturer serving the fastest-growing segments of the global Electronics Manufacturing Services (EMS) market.

Recognized as a technology leader, Sanmina-SCI provides end-to-end manufacturing solutions, delivering unsurpassed quality and support to OEMs primarily in the communications, defense and aerospace, industrial and medical instrumentation, multimedia and consumer, computing and storage, and automotive technology sectors. Sanmina-SCI has facilities strategically located in key regions throughout the world. More information regarding the Company is available at <http://www.sanmina-sci.com>.

Sanmina-SCI Safe Harbor Statement

The foregoing, including the discussion regarding the Company's future prospects, contains certain forward-looking statements that involve risks and uncertainties, including uncertainties associated with economic conditions in the electronics industry, particularly in the principal industry sectors served by the Company, changes in customer

requirements and in the volume of sales to principal customers, the ability of Sanmina-SCI to effectively assimilate acquired businesses and achieve the anticipated benefits of its acquisitions, and competition and technological change. The Company's actual results of operations may differ significantly from those contemplated by such forward-looking statements as a result of these and other factors, including factors set forth in the Company's fiscal year 2006 Annual Report on Form 10-K filed on January 3, 2007 and the other reports, including quarterly reports on Form 10-Q and current reports on Form 8-K, that the Company files with the Securities Exchange Commission.
