**VIKING INTERWORKS™ ANNOUNCES MASS PRODUCTION OF THE INDUSTRY'S  
HIGHEST DENSITY 10-PIN EMBEDDED USB DRIVE**

**RANCHO SANTA MARGARITA, Calif. – January 8, 2008** – Viking InterWorks™, Inc., a Sanmina-SCI Company (Nasdaq NM: SANM) and designer and manufacturer of memory modules, today announced a family of 10-pin embedded USB (eUSB) solid-state storage drives. With densities ranging from 64MB to an industry-leading 16GB, Viking InterWorks' 10-pin eUSB drives deliver high performance, reliability, advanced ECC and wear leveling, while simultaneously offering a rugged solution to embedded and enterprise systems Original Equipment Manufacturers (OEMs).

Viking InterWorks' eUSB modules provide non-volatile, solid-state storage that is ideal for a variety of embedded applications, including Single Board Computers (SBCs), networking equipment, blade servers and gaming machines, or other applications that are extremely space constrained. All Viking InterWorks' eUSBs combine the standard USB 2.0 interface with the highly reliable Single Level Cell (SLC) NAND Flash for seamless, highly reliable integration.

"Viking InterWorks continues to support OEMs in the enterprise, embedded and network infrastructure markets with innovative and high-density solutions," stated Adrian Proctor, Vice President of Marketing for Viking InterWorks. "Our family of eUSB products add to the broad range of industrial-grade Flash solutions we currently offer our customers today. Most of the applications that run embedded operating systems typically do not need very large amounts of storage capacity. Our eUSB family of products now provides a reliable, space saving and cost-effective solution."

Viking InterWorks continues to advance its technology leadership role by proactively developing products required for the enterprise, embedded and network infrastructure markets. For more information on all other DRAM, Flash and Microprocessor module products, please visit <http://www.vikinginterworks.com>.

### **About Viking InterWorks**

Headquartered in Rancho Santa Margarita, California, Viking InterWorks is focused on delivering innovative, high-quality memory and communications modules to the server, telecommunications and embedded markets. Founded in 1989, Viking InterWorks has been providing Original Equipment Manufacturers (OEMs) with industry leading design, engineering, product support and customer service for more than 18 years. For more information, visit <http://www.vikinginterworks.com>.

### **About Sanmina-SCI**

Sanmina-SCI Corporation is a leading electronics contract manufacturer serving the fastest-growing segments of the global Electronics Manufacturing Services (EMS) market. Recognized as a technology leader, Sanmina-SCI provides end-to-end manufacturing solutions, delivering unsurpassed quality and support to OEMs primarily in the communications, defense and aerospace, industrial and medical instrumentation, multimedia, computing and storage, and automotive technology sectors. Sanmina-SCI has facilities strategically located in key regions throughout the world. More information regarding the company is available at <http://www.sanmina-sci.com>.

### **Sanmina-SCI Safe Harbor Statement**

The foregoing, including the discussion regarding the Company's future prospects, contains certain forward-looking statements that involve risks and uncertainties, including uncertainties associated with economic conditions in the electronics industry, particularly in the principal industry sectors served by the Company, changes in customer requirements and in the volume of sales to principal customers, the ability of Sanmina-SCI to effectively assimilate acquired businesses and achieve the anticipated benefits of its acquisitions, and competition and technological change. The Company's actual results of operations may differ significantly from those contemplated by such forward-looking statements as a result of these and other factors, including factors set forth in the Company's fiscal year 2007 Annual Report on Form 10-K filed on November 28, 2007 and the other reports, including quarterly reports on Form 10-Q and current reports on Form 8-K, that the Company files with the Securities Exchange Commission.
